GOLD continues to pour out of the United States into Europe at the rate several million dollars a day. What does it mean?

CARLOTTA PATTI, the talented sister of Adelina, is dead. Carlotta was lame, which prevented her appearance on the stage, but her voice was remarkably fine.

It is announced that Prince Albert Victor, eldest son of the Prince of Wales, and future King of England, has been affianced to Princess Victoria of Prussia, sister of the Emperor of Germany. The remarkable information is also added that the Prince will give his son a marriage settlement, and Parliament will not be asked to make provision for him. Where has "Wales" made a raise?

The Washington Star says:

Halfay thinks it has a new idea in a summer carnival. It has. It is welcome to keep it. All the carnival is a human being, and it is in midsummer is a chance to get out of reach of everything that reminds him of the temperature, to wear as few clothes as decency will permit, to have as much ice at his disposal as he can use, and to enjoy abundant leisure to swing a palm-leaf fan.

But a summer carnival in California would have none of the drawbacks at which the Star hints. Here in the heart of June there is no sultriness, and a summer carnival would fill the bill.

MINNESOTA has been enjoying a variation from its summer frosts in the shape of a "combined" cyclone, waterspout and hailstorm, which playfully removed everything in its path, stripping clear a belt two miles wide and thirty miles in length, tearing up trees two feet in diameter and firing hailstones as big as a man's fist—in a spirit of pure fun, of course—in a spirit of pure fun, of course.

the Minnesota, only a few of whom were killed, and those ought to have known enough to go in when it hailed. By the way, land is much lower in price in Minnesota than here. Why don't some of our people go up there and settle?

PASADENA has given prohibition a fair trial. It has been notorious that, since the inauguration of the new system, persons who were "poated" could get all the liquor they wanted within the prescribed limits. Of late an attempt has been made, by means of a field espionage, to stop these leaks. The informer is now on trial. Public opinion in Pasadena is strongly against this hypocritical-breeding method of making men moral. On the other hand, three prohibition Pasadena councilmen declare that they will resign if the spy is acquitted. This is the usual result. As long as prohibition laws can be hypocritically evaded, people submit. If an attempt is made to push them further, the system, like an over-full reservoir, bursts. Pasadena will probably be a well-regulated, high-license city within a year.

MR. KERCHEVAL, one of the County Horticultural Commissioners, has a communication in this issue, criticizing our editorial of yesterday on the *pedologia cardinalis* and its work. Mr. Kercheval falls to show that the Australian ladybug is not, as we stated, destroying the white scale, and his plea for the continuance of the use of wasps is not likely to meet with very warm endorsement from the horticulturalists of Los Angeles, who have in vain tried one wash after another, only to find the *terro* more vigorous when over, after a few short months. If the ladybug has utterly cleared the white scale out of the Wolfskill orchard, rendering trees clean, vigorous and thrifty that were condemned to destruction, what need is there to use wasps for remedies?

BRACE UP, GENTLEMEN!

The honorable members of the City Council may be chock full of good intentions—although there are some skeptical persons who will not even credit them with so much as that—but we all know that a place whose climate is more than semi-tropical is reported to be paved with such moral mirages. What the Councilmen specially need, just now, is a little more backbone and energy. Of late they have been constantly exhibiting to the wearied citizens their utter lack of these qualities.

Take, for instance, the East First street matter. It is now for the first time in the history of the city that a few moons—in fact, away back in what may be called the pre-asphaltum or boom period—since the widening of this street was commenced under quasi-official sanction. Houses were set back and sidewalks cut away on that basis; then the City Surveyor was ordered to give the lines for an 80-foot street; then he was told not to; then chaos reigned for a number of months; until, a few weeks ago, the matter was again taken up in the Council. The City Attorney was ordered to prepare an ordinance for the widening of the street from Los Angeles street to the river; on the following week he presented it, and it was referred to the Board of Public Works; the week after the board reported favorably, and then the Council—postponed the matter once more for a week. As a result of all this shilly-shallying, even if the ordinance is passed, it will throw the work into the next rainy season, and for the third consecutive winter the leading east and west thoroughfare of Los Angeles will resemble, in miniature, the Conemaugh Valley after the flood.

Again: A few months ago the Council—very properly, as we think—passed an ordinance designating the limits within which more than two cows could be kept. This caused a kick on the part of some persons who have a dairy—and a "pull"—and the amiable Council accordingly reconsidered the action, and enlarged the lactical limits. This, however, was not enough, and so the Council, in its eager desire to please everyone, changed the ordinance so as to permit cows to be kept for sale within the limits, but not for dairy purposes! Whether they may be milked while for sale, or sold while being milked, or whether they must be conducted outside the "cow-line" twice a day for that purpose, is not, we believe, stated, nor is any attempt made to explain in what respect the odor of a "For Sale" cow is superior to that of a dairy cow.

Once more: A couple of weeks ago the Council gave a local firm a contract to decorate the new Council chamber, for about \$1000. Other firms, in the same line of business, kicked, and, as a consequence, the Council this week rescinded its decision and ordered bids to be advertised for the work.

Many other glaring instances of a weak-kneed policy on the part of the Council might be adduced, but enough has been shown—and enough is known to the public outside of this—to establish the fact that our city government, at a time when the city has special need of good, determined men at the helm, is lamentably lacking in true statesmanship. This makes the outlook rather discouraging for a speedy and satisfactory solution of the knotty sewer problem, with which we have only just begun to wrestle, and as to which so many diversified opinions prevail.

We refer to these things "more in sorrow than in anger," and not from any disposition to assume the role of a carping critic, but rather in the hope that a fair presentation of the case, as it strikes the public, may induce the City Fathers to make a strong, united pull in the direction of the city's interests, leaving individuals to fry their own fish, to the end that Los Angeles may once more be started forward on the road to prosperity at a pace commensurate with her great natural advantages.

MALICIOUS FALSEHOODS.

It seems as if lies about this section, in outside papers, would never cease. Last week the San Francisco Bulletin stated that Los Angeles County, to pay off her indebtedness, would be compelled to levy a tax of \$40 per head upon every inhabitant. Taking the population of the county—before division—at 150,000, this would mean that we owe \$6,000,000. Now, let us see how near this is to the truth.

The funded debt of the county is as follows: 1881, \$15,000; 1882, \$45,000; 1884, \$84,500; 1885, \$407,000; 1887, 190,000; total, \$831,500. If we add to this, for floating indebtedness, \$18,500—a very liberal estimate—it gives us a grand total of \$850,000, or a little more than one-tenth of the amount implied by the Bulletin.

While on this subject it may be well to mention that Los Angeles county bonds, to the value of \$90,000, were sold the other day at 102, the bonds bearing only 4 per cent. interest. Another bid was received at the same rate. Surely this does not look as if our credit was very low. In point of fact, the financial standing of Los Angeles is today equal to, if not better than any other of the 52 counties in the State, bar none. So much for that lie.

Next we come to a statement in an Indianapolis paper to the effect that "the tax list of Los Angeles, Cal., fills 400 columns of nonpareil type." From this it might be inferred that the city only is meant, instead of the whole county; but let that pass. The tax list referred to filled just 208 columns, six-column size. Of these, at least eight columns were occupied by the index. This, however, was certainly big enough, but the fact is well known to every one in this section that nine-tenths of the property advertised belonged to people who were perfectly able and willing to pay the taxes on their property, but were unable to go on account of the appalling confusion which prevailed in the Assessor's and Collector's offices. In proof of this is the fact that, before the day of sale,

the taxes unpaid had been reduced to a few thousand dollars. As soon as property-owners had a chance to pay their taxes, the great overgrown delinquent list melted away like snow in a Northern Citrus orange orchard under a noonday sun.

Such lies as these, which we have just refuted, must inevitably react in favor of Southern California when outsiders come here and see for themselves how false the statements are; but this does not, in any degree, lessen the turpitude of those who are constantly circulating such spiteful and malicious untruths about a section whose irresistible attractions are its chief crime in their eyes.

U. S. DISTRICT ATTORNEY.

George J. Denis, Esq., United States District Attorney, some days since received the following letter from the Attorney-General of the United States, which explains itself, and which is highly honorable to Mr. Denis:

DEPARTMENT OF JUSTICE.

WASHINGTON (D. C.), June 18, 1899.

George J. Denis, Esq., Los Angeles, Cal.—Sir: Your note of June 6th, enclosing your resignation of the office of District Attorney for the Southern District of California, to take effect on the second day of August, is received, and I am authorized by the President to accept the same, to take effect at that date, which is accordingly done. In accepting this resignation I take pleasure in saying, from what I know of your administration of the office personally, as well as what I have learned from others, I am sure that in you the Government has a faithful and efficient officer. We will try to appoint a successor before the time for the taking effect of your resignation, and trust you will afford him any such facilities for acquainting himself with the business as may be in your power.

Very respectfully yours,

W. H. MILLER, Attorney-General.

The principal candidates for the succession are Willoughby Cole, Esq., Maj. J. A. Donnell, and N. P. Conrey, Esq., each with his own particular backing. Mr. Cole is supported by Senator Stanford and ex-Senator Cornelius Cole; Maj. Donnell by Representative Vandever, upon whose suggestion he became a candidate, and Mr. Conrey is backed by some good local influence and by some that is not local, but has its lodgment in Indianapolis, where the young attorney hails from. As is indicated by Attorney-General Miller's letter, the appointment will doubtless be made some time during the coming month.

The office is one of the first importance among the local Federal offices, and it is a matter of the first consequence that it be filled by a strong, capable, and honest lawyer, who will do his duty by the Government and the people with absolute fearlessness and fidelity.

It is the pending litigation between the Government and the Southern Pacific Company over granted lands in California that gives special importance to the District Attorney's office at this time. Millions are involved, as shown by the recent decision of United States Judge Ross, the ultimate effect of which, if maintained, will be to restore to the public domain more than 800,000 acres of land lying between San Francisco and the Colorado River. The suit for the forfeiture and restoration of these lands was brought under the present administration by District Attorney Denis, under instructions from Attorney-General Miller, who has highly commended Mr. Denis for all his work. Joseph H. Call, Esq., special counsel of the Government, prepared the cases, however, and had the matter immediately in hand from the inception of the suits. He was appointed upon the recommendation of Mr. Denis.

It is, we repeat, a matter of the first consequence to the Government and the people what shall be the attitude of the United States District Attorney's office here touching these and kindred suits that may be brought for the securing and protection of the public interests.

A WORTHY APPOINTMENT.

As was generally expected, Capt. William M. Meredith has been appointed Chief of the Bureau of Engraving and Printing in Washington. Capt. Meredith commenced life at the printer's trade, in a country town of Indiana, under the late John D. Defrees, formerly Public Printer. Subsequently he went to Indianapolis, where he for several years was foreman of the Indianapolis Journal. When the rebellion broke upon the country he went to the war, and served throughout the conflict, distinguishing himself particularly at the battle of Resaca. After the war he returned to his pursuit (printing), and from Indianapolis followed his employers, Col. J. H. Woodard and Fishback, to St. Louis about 1871, at the time they purchased the St. Louis Democrat, remaining in St. Louis until the consolidation of the Democrat with the Globe. For the past ten years Capt. Meredith has been in the Northwestern Bank Note Company of Chicago, occupying the position of superintendent. He is known as a skilled workman and a man of character and ability. His appointment to the head of the Bureau of Engraving and Printing is a fit appointment.

FREDERICK DOUGLASS has been appointed Consul-General to Hayti—a merited recognition of a noted man.

CHICAGO claims nearly a million people. A wonderful showing for half a century of growth.

AMUSEMENTS.

WYATT'S OPERA COMPANY.—Almost all of the leading artists are more or less disabled on account of colds, and Mrs. Padelford, the prima donna, will have to take a rest today and tonight, or she will not be able to appear in *Virginia* Monday night, as she has a hard role to sing and must be in a good condition. Mrs. Metzler-Williams, her understudy, will assume the rôle. The little lady is gaining ground nightly, and may now consider herself one of the favorites that Los Angeles claims. Quite a number of people imagine that *Paul and Virginia* is to be given Monday night. *Virginia* is a comic opera by Stephens and Solomon, and is considered one of the best light operas on the stage today.

JED PROUTY.—At the Grand this afternoon a matinee will be given, and "Old Jed" will close his engagement this evening. The engagement has not been a success, although the house was better than on the

opening night. It is well worth seeing, and there should be a good house this evening. Monday night the *John Bull* will be given, one of the best burlesque companies on the road, will open at the Grand, and will play during the week.

PEOPLE'S THEATRE.—This little theater has done a fair business all week. There will not be a change of bill until Monday night.

PARKS.

The Commission Audits Westlake Bills.

The weekly meeting of the Park Commission was held last night at the Mayor's office, with His Honor presiding, and Commissioners Bryant and Hutton present. The pay-rolls and demands of the Westlake Park, amounting to \$3262.22, were presented, which includes everything owing up to date.

Mr. Bryant stated that Mr. Spillman, one of the contractors, had made a deduction of something over \$400. The total amount so far expended on Westlake Park, it was stated, amounted to something over \$6000 and there is still about \$10,000 more to be expended on the park, which can be used in that park.

Mr. Marsh, the contractor building the bulkhead, also made a statement in regard to the work, showing that the work had cost more than at first estimated, and that the ground requiring much longer piles than was expected, and as it was generally conceded by the commissioners that the contractor had done what was right, and requested a report on the result.

Westlake demands were also approved by Dr. Bryant, and ordered paid.

The general pay-roll for the parks for the past five weeks, amounting to \$1834, was presented by Superintendent Legrand, and was being certified by him to be ordered paid.

The usual weekly demands were presented, approved and ordered paid.

Dr. Bryant asked that the assistant superintendent be stationed permanently at the Westlake Park, to superintend the work of laying out, etc., and it was so ordered.

Several bills were presented and approved, and the persons presenting them instructed to make out their demands as required by law.

A communication was received from the Department of Agriculture, saying that some specimen seeds had been sent to the Forest Experiment Station, and requesting a report on the result of planting. Referred to the superintendent.

Dr. Bryant announces that he and Mr. Hubbell were going east on a business trip, and would be absent for a few days, and made a final appeal for his pet park, including the lake, asking that the laborers be at once paid, so that the men could celebrate the Fourth of July.

Hutton moved that the superintendent at once discharge as many men as he possibly can spare from the parks, and keep his force down to the lowest point, which motion was carried. Adjourned.

ENTICING FEMALES.

Who Took in an Old Man and a Frenchman.

Yesterday morning an old Frenchman complained at the police station that he had been inveigled into a room at No. 27 Aliso street by a couple of frail damels, who had robbed him of his silver watch and \$18 in money. The old fellow said that he was in a saloon in the neighborhood, when the girls solicited him to come to their room, and when he went with them they plied him with liquor, and then went through him. He said that he knew the women, and could identify them. From the description, a complaint was made out against Nora McDonald and Carrie McLaughlin, two notorious prostitutes, and Detective Wallin went down to the house and arrested both of them. They were brought to the police station, where they were booked on a charge of time-larceny, after which they were taken before Judge Owens, and committed to the County Jail in default of \$1000 bail each. The women are two of the most notorious in the city, and have been in the County Jail. The place where they live is also a tough "joint," and will be looked after by the police.

REV. JAMES.

He Proposes to File a Cross-Complaint.

The Rev. James, of Long Beach, notoriety, has determined to fight the divorce proceedings brought against him by his wife. He has been in the city for several days in close conference with his attorneys, and his black-robed figure may be seen on Spring street several times a day. He does not wear that deplorable appearance that characterized his saintly figure when he preached social purity in burning language to the members of his flock, but still wears a clerical countenance, and his long black coat. It has been ascertained that an answer is being prepared to the complaint of Mrs. James, and a cross-complaint, and that they will be filed in a day or two. One of the allegations in the cross-complaint will be extremely credible on the part of Mrs. James. It is probably that the trial will result in exceedingly sensational features.

Simple Funeral Rites Over the Remains of Mrs. Hayes.

Shocking Story of Debauchery and Death.

The Full Extent of the Disaster at Johnston Becoming Known.

The Flathead Outbreak Quietening Down.

By Telegram to The Times.

St. Louis, June 28.—[By the Associated Press.] Jefferson Bolton, formerly a guard at the Jefferson City Penitentiary, has been arrested on suspicion of being concerned in the murder of Annie Weiss. It is thought that at least he knows something of her seducer.

Bolton was released this evening, the police having satisfied themselves of his innocence. Frederick Bushie, uncle of the dead girl, claims to believe that a certain scolding man in Jefferson City was her betrayer. It is learned that the girl, before leaving the house of her sister, burned all her letters and told her sister in case she did not return to divide her effects among the family. The police are now proceeding on the belief that the murderer was a man employed in the hotel where the girl was engaged to arrange for a criminal operation on her.

A dispatch from Jefferson City says the man whom the uncle thinks was the girl's betrayer protests his innocence and promises to make things warm for his accusers.

LAST RITES.

Funeral of the Late Mrs. Hayes—Simple Services.

FREMONT (O. June 28.—[By the Associated Press.] The morning trains brought quite a number of persons to pay the last tribute of respect to the late Mrs. Hayes. There were groups of old soldiers to be seen everywhere, on the streets, or on the way to the Hayes' home.

The remains were arrayed in a dress of ivory cream satin, with white passementerie and lace trimmings. The dress was made for Mrs. Hayes while she was in the White House. The appearance of the corpse was most lifelike, the illness being so short and death so sudden, there was but little emaciation of the face, which was pale, but there was a trace of rose color in the cheeks, the closed eyes were not sunken, and there was a smile on her lips.

The postoffice, banks and other business houses were closed this afternoon. There was a very large gathering of people at the funeral.

The wide hall, parlors and library were heavy with perennials of flowers, tributes from friends and relatives. The casket was in arms of Gen. Hayes and military and civic organizations. The profusion was bewildering, many offerings were of the most elaborate nature. Among the great number arriving today were a magnificent plume of white lilies and maiden-hair fern from Fremont and Mrs. Hayes' crosses of ivory on the base of lilies from the National Organization of the Woman's Relief Corps, a banner of Ohio; the Lucy Hayes Memorial Band sent a piece of music of 75 white roses, one for each year of the life just passed; a most beautiful piece came from the W. M. A. M. S. Society of the Methodist Church, of which Mrs. Hayes was president.

The funeral services were simple and unostentatious, preserving the character of a private rather than public occasion. The services opened with reading of the 23d psalm by Rev. H. W. Miller, D. D., of the Methodist Church, followed by the hymn, "My Jesus as Thou Wilt," read by Rev. G. E. Barnes, pastor of the Presbyterian Church, and the reading of the Lord's Prayer. Prayer was then offered by Rev. Dr. Bailliford of Ohio Wesleyan University, Des Moines, Ia. A collection followed, read by Rev. N. Ship of the Evangelical Church, "When Peace Like a River," Rev. L. D. McCabe, D. D., who performed the marriage ceremony for Gen. Hayes and his wife, then delivered a funeral address. Rev. J. L. Swander of the Baptist Church, then read the Lord's Prayer, closing the simple, impressive services. An opportunity was then given to the church of sympathizers to come from abroad to view the casket. The funeral cortege then took up the line of march to Oakwood cemetery, where the interment took place.

About a score of survivors of Gen. Hayes' old regiment, the Twenty-third (Ill.) Infantry, who had marched to the funeral from different parts of the East, acted as a guard of honor to the hearse. The ceremonies at the cemetery were very brief. The casket was immediately lowered on arrival at the grave. Dr. A. Ashford read the simple Methodist burial ritual, and the mortal remains of Lucy Webb Hayes were laid to rest in the family vault. The pall-bearers were the sons and kinsmen of the deceased.

DEBAUCHERY AND DEATH.

Fatal Ending of an Orgy in a Disreputable Den.

PATERSON (N. J.), June 28.—[By the Associated Press.] Four women and two men, all of disreputable character, were discovered dead about 9 o'clock tonight in a house of ill-fame at 417 Kyle avenue. Death was caused by asphyxiation. Three of the women were stretched at full length on the floor, and were half naked. The oldest, who was about 40 years of age, was lying on a pool of blood, which came from an ugly wound in her head, and covered her face and body. Her right eye was almost torn from the socket, and her face was swollen and somewhat decomposed. The keeper of the dive, named Gottlieb, a man about 50 years old, was in the worst condition. His face was a harbor for lewd women for more than a year. The fatal work was evidently the done by a katana. The police and coroner are investigating.

EL PASO POLITICS.

A Democrat Chosen Mayor by a Slender Majority.

EL PASO (Tex.), June 28.—[By the Associated Press.] The peculiar contest for the mayoralty of El Paso, which has been raging for over two months, was settled at the polls today by the election of Richard Caples (Dem.). At the April election Craker (Rep.) received a majority of 37. The election was charged to be fraudulent, and was investigated by the City Council. The Republicans, on a recount, got a majority of four. It was discovered in the meantime that he was an alien, a subject of Germany. He was declared ineligible by the Council, and a new election was ordered for today, in which Caples (Dem.) was elected by 15 majority.

The Council now stands: Republicans, five; Democrats, three.

FROM JOHNSTOWN.

The Full Extent of the Late Disaster Becoming Known.

JOHNSTOWN (Pa.), June 28.—[By the Associated Press.] The situation in Johnstown is growing brighter every day. Eight thousand dollars in cash arrived today to pay the men in the various departments. The work of registering the food sufferers for the purpose of distribution of the local funds was finished tonight, but the totals have not been added. The men in charge of the work do not think that more than 4000 persons were lost.

WASHINGTON.

Some Important Positions Filled.

Fred Douglass to Be Minister Resident at Hayti.

Capt. Meredith Chief of the Bureau of Engraving and Printing.

The Civil Service Commissioners Administer a Sharp Rebuke to an Advocate of the Spoils System—Notes.

By Telegram to The Times.

WASHINGTON, June 28.—[By the Associated Press.] The President's afternoon appointments to the following:

Capt. Meredith of Chicago, to be Chief of the Bureau of Engraving and Printing.

James G. Wright of Illinois, to be agent for the Indians of Rosbud agency in Dakota.

Frederick Douglass of the District of Columbia, to be Minister Resident and Consul-General of the United States to Hayti.

Daniel M. Randall of Indiana, to be United States Marshal for the District of Columbia.

It is understood that Douglass will accept the mission. It is said the appointment will in no wise change the situation of the United States to the spoils system parties. Douglass' commission will accord him to the Republic of Hayti, and he will present credentials as a commissioner at the time represents the authority of that Republic. Thompson, however, has been with Legation, and the situation will be a little more complicated before Thompson's recall, unless events in Hayti should in the meantime undergo a change.

THE GUN CLUB

AFTER THE FIRST SLICE OF THE SEWER MONEY.

They Think They Ought to Have \$13,500 for Their Tide Lands, but Finally Vote to Accept \$10,000—Some "Executive" Business in Progress.

It will be remembered that the Council held a special session last Wednesday to discuss sewer matters and such other topics as inadvertently came up, and that at this session the protest of the Santa Monica people against locating the mouth of the outfall sewer within a mile of their town limits was presented.

After the public business had been transacted, the Council went into executive session, from which the public and the reporters were excluded.

It now transpires that the City Fathers in that executive session decided to make a purchase of land from the Los Angeles Gun Club, over which to run the outfall sewer to the ocean.

The gun club owns about 270 acres of tide lands, which are good for nothing in the world except to grow salt grass and shoot over. What these lands cost is not now apparent, and what it might be worth to run the sewer across them would be entirely covered over could hardly be expressed in decimal fractions. The gun club, however, had concluded that it could afford to sell these lands at a right of way across them to the city for the sum of \$13,500—which would make just \$500 apiece to the 27 members.

The Council (which, by the way, includes one or more members of the gun club) at its executive session, as stated, concluded to make an offer for these desirable grounds, but it is understood that it thought it could not offer more than \$10,000. Last night the gun club held a meeting, at which 17 members were present. Jacob Kutz held a meeting and a member of the City Council was on hand.

Although the meeting was strictly private, it is understood that it decided to accept the \$10,000 offer, as the city could not afford to do any better. The probability is that the Council will hold another executive session today, from which the public and reporters will be excluded, and that they may then confirm this very advantageous bargain.

NICHOLAS BORT.

A Lad Who Has Had a Strange Experience.

Several days ago Chief of Police Burns received a communication from A. N. Bort of Beloit, Wis., making inquiries about the whereabouts of Nicholas Daniel Bort, supposed to be in this city. The letter was given to Detective Glass to look up, who succeeded in discovering quite a story.

Nicholas Bort, it was learned, started from Atchison, Kan., for Los Angeles some months ago. He had been interested in a hardware store in that city, and was supposed to be a man of some means. His health failing, he concluded to come to California, and started for this city, accompanied by his son, a boy about 12 years of age. Bort was taken sick on the train shortly after leaving Atchison, and died before reaching Los Angeles, being buried at that place. The boy was brought on to Los Angeles by a family on the train named McLaughlin, who took up their residence on Hayes street, East Los Angeles.

To Bort's brother at Beloit, but by some mistake his reply to them mis-carried, and nothing more was heard of the matter until the letter of inquiry was received by the police. The McLaughlins are still living on Hayes street, and from them it was learned that young Bort had lived with them for a short time ago, when he went to the Palace, where he was engaged in a hand-to-hand fight. He told the uncle of the boy will be communicated with, and all the facts given him. It is believed that Bort had some property in Atchison, and also that his interests in the hardware business in that place had not been liquidated, and measures will be taken to put the boy in possession, if such is the case.

Santa Monica by Way of the Foot-hills. The Los Angeles and Pacific Railway did a large Santa Monica business last Sunday, all its trains both going and returning being comfortably filled, but not over-crowded. Over-crowding is something this company will not permit, and as a consequence all who ride over the road are loud in their praise of the very efficient manner in which the large Sunday traffic is handled. The running of hacks and cabs from the general office, No. 44 North Spring street, on Sundays is also a great convenience to the traveling public. The fare is only 5 cents, and the passengers are carried direct to the depot. All who intend visiting Santa Monica tomorrow should avail themselves of the delightful ride and beautiful scenery afforded by a trip over the new line.

Tax Title No Title.

Yesterday morning in Judge Shaw's court, Department No. 5 of the Superior Court, the case of J. W. C. Miller vs. N. P. Campbell was decided in favor of the plaintiff. The plaintiff neglected to pay taxes on valuable city property in 1938. On the assessment book his name was placed "Miller" without the initials. It was contended that this vitiated the subsequent forfeiture and sale of the property for delinquent taxes. It is said that there is not a single tax title that holds water when put to the test.

Newspaper Changes.

George F. Hutton, for some months past railroad reporter on the Herald, has resigned his position on that paper to accept a responsible place with the Los Angeles and Pacific Railroad, with headquarters at Santa Monica. Mr. Gordon, telegraph editor of the same paper, has also resigned, and will go to San Francisco. The vacancies will be filled by E. L. Jones and Mr. Livensood, the latter of whom formerly filled the position of telegraph editor on the Herald.

Army News.

The following items of army news are obtained from general orders just issued:

Upon recommendation of the Chief Quartermaster of the department, so much of general order No. 17 as requires certain reports from posts in the district of New Mexico to be forwarded through the Chief Quartermaster of the district, is revoked; beginning July 1st, officers serving in the Quartermaster's department at these posts will forward all reports

and returns pertaining to their duties direct to the Chief Quartermaster of the department.

Special orders from department headquarters give the following army news:

Maj. J. W. Wham will go to Fort Grant, Ariz., on special business. Furloughs are granted as follows: Sgt. Louis Mohr, Troop L, Sixth Cavalry, four months; Sgt. William Rose, Company F, Twenty-fourth Cavalry, four months; Corp. John F. Potts, Troop C, Sixth Cavalry, two months; Musician Joseph Boyer, Company D, Tenth Infantry, an extension of 15 days.

Jeff White Adopted.

Mrs. Mary A. Mooney of Santa Monica was yesterday granted permission by Judge Clark of Department No. 2 of the Superior Court to adopt T. Jeff White, the son of a deceased sister. The young man is the son of the late T. Jeff White, sole descendant of the late Dr. White, one of the pioneers of California, and for many years a prominent and wealthy citizen of Los Angeles.

Modern science has shown evolution to be a natural law, from protoplasm to man; so also have the products of the "gentle craft," following scientific evolution, from the winged sandals of Mercury to the present perfection of covering for nineteenth century soles. Of feet there is an "infinite variety," and the fastidious demand is that shoes shall fit like gloves. To meet this demand Mr. O. A. Johnson has established a first-class manufactory for custom-made boots and shoes, ladies' and gents' goods a specialty. Mr. Johnson is well-known, having been with M. S. Hines for six years. Give him a call, at 107 South Fort street, Y.M.C.A. building.

A Nest of Counterfeiters.

SAN FRANCISCO, June 28.—Max Wolf was arrested this morning at 417 Pacific street for passing a bogus five-dollar bill. Another counterfeiter was recently arrested in the same house, and it is thought a gang of counterfeiters, who have been infesting the city, has made the place headquarters.

Golden Poppies.

Ah, golden poppies on the hillside growing,
While the breeze' breath like a tide is flowing.
Which courtesies as it passes—
You lift your heads a-smiling,
The sun's smile is brightening,
To shine out from your faces
And light the hillside poppies.
With a glow like a crown.

Ah, golden poppies waving,
With your heads bowing low,
As the breeze' breath is flowing,
You lift your heads a-smiling,
The sun's smile is brightening,
To shine out from your faces
And light the hillside poppies.
With a glow like a crown.

All your golden bells ring lightly,
While the breeze' breath is flowing,
You lift your heads a-smiling,
The sun's smile is brightening,
To shine out from your faces
And light the hillside poppies.
With a glow like a crown.

Then the world will pause and listen,
While the birds with dewdrops glisten;
Swing, sing, and the world will say,
O, the notes that we hear today!
What is it, sweet, this music low,
That breathes through the winds and sun?
But only between us, you and I,
Shall the beautiful, glad secret lie,
And be sure we never will tell.

A TRIBUTE

To the Venerable Senator Charles MacLay.

Eight members of the board of directors of the University of Southern California went to San Fernando yesterday afternoon and called on Hon. Charles MacLay to convey to him their sympathy in his sickness, and express their appreciation of his services in founding and endowing the MacLay College of Theology.

The delegation found him at his home, able to meet them at the door of his room, comfortable but very weak. After greeting at Senator MacLay's request President Bovard led in a short prayer.

Judge Widney, in a formal way, expressed the sympathy and appreciation of the board in a short address, in which he said Senator MacLay was more like a father to him than an uncle. "About the time Senator MacLay came to the San Fernando Valley, a gentleman speaking about that part of the valley, said he did not know what that part of the valley was for unless it was to hold the world together. But Senator MacLay and others, by hard work, had made out of it one of the finest valleys in the State, and during all this time Senator MacLay had but the one thought in his mind—of gathering means whereby he could be able to do some great work for the church, and the people of that part of the valley. He had made out of it one of the finest valleys in the State, and during all this time Senator MacLay had but the one thought in his mind—of gathering means whereby he could be able to do some great work for the church, and the people of that part of the valley. THE CITY IN BRIEF.

John A. Logan Post, G.A.R., meets this evening at Knights of Pythias Hall, 24 South Spring street.

W. D. Scott has been appointed chief of the clerical force of the Union Pacific's passenger agency in this city.

There will be a meeting of the Normal School Alumni at the Normal Assembly Hall today at 1:30 and also at 8 o'clock p.m.

Malet & Zobelev have issued invitations to a great many citizens to be present at the opening of their large new brewery on Aliso street today.

There are undelivered telegrams at the Western Union Telegraph office for Leon A. Caw, H. Edwin Moore, S. S. Litchfield and Rev. F. C. Stephenson.

There was a short business meeting of the Recreation Gun Club at Mayor Hazard's office last night, after which they adjourned to attend the dog show at the Pavilion.

The case of Minnie Powelson, charged with vagrancy, was called before Judge Owens yesterday afternoon, but owing to the absence of material witnesses, a continuance was granted.

Fritz Ficker was arraigned before United States Commissioner Van Dyke yesterday on a charge of using cancelled stamps at the Philadelphia brewery. His bail was fixed at \$500, and his examination set for July 27th.

The following items of army news are obtained from orders from department headquarters: Capt. A. H. Brown, Ninth Infantry, is granted an extension of his leave of absence for 20 days. Sgt. Joseph Harn, Troop E, Fourth Cavalry, is granted a furlough of four months.

Frank Lamorne, son of a respected citizen of Los Angeles, who was committed to Stockton some months ago and who was afterward discharged as cured and returned to his father's home, has been found to be non compos mentis again, and was committed to the County Jail yesterday to await an official examination.

For several days past a bay horse attached to a sulky has been noticed tied up on Los Angeles street from 8 o'clock in the morning until 1 o'clock in the afternoon. Yesterday afternoon the animal was taken to the police station, and when the owner put in an appearance a charge of cruelty to animals will be put against him.

Marriage licenses were issued yesterday to the following persons: R. K. Coleman, aged 23, and Madge Anslan, aged 20, city; Hiram Whitehouse, aged 31, and Ida A. Hively, aged 23, city; Charles J. Vernon, aged 24, and Mrs. Cora B. Vernon, aged 21, of Whittier; Wang Wah, aged 30, and King aged 18, city; Francisco Berione, aged 39, and Rosa Leonore, aged 23, city.

At a meeting of the Board of Public Works yesterday afternoon a very strong opposition to the opening of Ward street on the proposed line was developed, many property-owners protesting against it. After considering the matter as long as possible, the question was referred back to the City Engineer, with instructions to go over the ground again and present new plans to the board.

One of the largest individual contributors to the Johnstown relief fund is of the opinion that it is about time for the committee having the matter in charge to furnish a final report, and yesterday requested a Times reporter to call attention to the matter through the columns of the press, as he thought something of that kind was customary, would make the contributor feel easier.

Yesterday a report was circulated on the streets that a little child had met with a horrible death, by having its head twisted off in a buggy wheel by a runaway team on Aliso street. Investigation, however, showed that while an accident had occurred, it was nothing like as bad as reported. A horse attached to a buggy ran away, and the occupants, a woman and her child, were thrown out, the woman having her arm broken and the child being badly bruised and injured about the head. It is believed that it is not fatally hurt.

Richard S. Whipple, a young man who came to Monrovia some weeks ago for his health, was found dead lying across the bed in his room at the Grand View Hotel, at that place, Thursday afternoon. His face was covered with a handkerchief, which had been saturated with chloroform. It is not known whether he used the drug to ease his pain, or whether he intended to commit suicide. Whipple came from New York, where his father is a wealthy contractor. He was about 22 years of age. A reply was sent to his relatives, when a reply was received requesting that the body be embalmed and the remains shipped east, which was done.

PEOPLE'S STORE.

A TREAT TO TEST THE TENSION OF TRADE.

An Interesting Day for Our Patrons—Bargains in Trade for the Old, Middle-aged and Young.

PEOPLE'S STORE. SATURDAY, JUNE 29, 1889. A TREAT TO TEST THE TENSION OF THE TRADE.

We will give you a treat today. Instead of strawberries and cream it shall be merchandise. You will relish it, for it will be flavored with price. We will set the tables laden with delicious offerings for everybody, and feel sure that your modesty prevents your accepting. You will not regret having come, for we'll make it interesting for all. The time you spend with us today will more than repay you for your pains and trouble. We want to test the selling capacity of our stores, demonstrate the amount of merchandise we can sell in a day and the convenience and facility for handling it. We have made the price on goods for today so low that if you are shopping or looking at ours you'll be induced to purchase. Look at our clothing if you have any needs in that line. We are honest when we say our prices are not the cost of the materials. Look at our dress goods. Take our word for it. In our business existence we have never seen such splendid values. It is the next thing to giving the goods away.

Look at our real printed Shanghai Fongee silks, 27 inches wide, that sell all over the United States at \$1.50 per yard, offered or slaughtered at 75c, black and white included. Look at our moire silk, full 24 inches wide, that are as heavy as a board, all silk, and sold for \$1.75 a yard, slaughtered today at 75c.

We are testing the tension of trade. Come in the early hours of the morning and trade at your leisure.

Look at our parasols; see the test we put on them, and then say whether or not today's prices are not related by our patrons.

Where freight and passenger vessels of largest size can transfer direct to railway cars. It will be connected with Los Angeles and the general system by

TWO LINES OF RAILWAY.

A first-class service will be provided and convenient trains will run during the daytime, thus making Redondo

Seaside Suburb of Los Angeles!

—IT WILL ALSO HAVE—

THE FINEST HOTEL

Between Coronado and Monterey, to be erected immediately; has the finest beach for bathing and the best fishing on the coast; is abundantly supplied with

Pure Soft Water,

and has the richest soil of any seaside resort in the country. It will have elegant and commodious buildings for the permanent use of the CHAUNATQUA ASSEMBLY, and has a greater variety of attractions for the tourist and health-seeker than can elsewhere be found on the shores of the Pacific.

This Property Has Been Subdivided Into Lots!

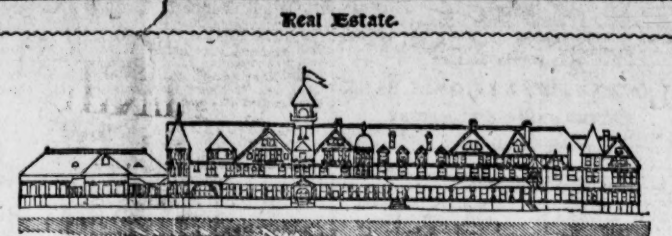

Suitably arranged both for homes and business purposes, and the company propose to spare no expense in making REDONDO the most popular resort in California.
